Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Tuesday 28 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mild with rain at times over the next few days.

Today:
Cloudy with occasionally heavy rain during this morning. Becoming drier by lunchtime, but remaining largely cloudy during the afternoon with some drizzle over the higher ground. Mild, but becoming breezier. Maximum temperature 10 deg C (50 deg F).

Tonight:
Largely dry this evening with skies clearing in many areas. Becoming rather chilly for a time but temperatures climbing later in the night as thickening cloud and persistent rain arrives. Minimum temperature 1 deg C (34 deg F).

Wednesday:
It will be a wet start to the day but the rain will become more intermittent through the morning. Much drier conditions by the afternoon with sunny spells. Breezy. Maximum temperature 14 deg C (57 deg F).

Outlook for Thursday to Saturday:
Mostly cloudy with rain at times on Thursday. Drier and brighter on Friday and Saturday but some rain is possible overnight. Windy at times but staying unseasonably mild.
